

Admissions to Masters in Urban & Regional Planning (MURP)

FACULTY OF PLANNING

CEPT University

Interview Schedule and Instructions for Candidates appearing for online SKYPE Interviews

Given below are instructions for all the candidates who had opted for online interviews through Skype **on 26th & 27th June 2014**. . Please go through the instructions and allotted time slots (given on the following pages) carefully:

1. Each candidate will have to log into his/her skype id submitted to us 5 minutes prior to the time slot allotted against their names and remain available online till their interviews are complete.
2. Please make sure that all the four skype ids (murp_admission1, murp_admission2, murp_admission3 and murp_admission4) from which interviews are going to be conducted are added to your skype accounts, well in advance before you log in. You will receive an invitation from CEPT IDs. Please accept the same in advance. Most likely your interview will be conducted from the ID mentioned against your name in the table below, however these may change in case of any technical fault.
3. Each candidate is expected to also keep the phone connections functional and at hand - for the two numbers submitted to us. In case of any voice related issues over skype the telephonic interview will be continued.
4. Each candidate will receive a phone call 5 minutes prior to the start of the interview and will be given 2 topics for debate/discussion. The candidate is expected to make a selection of one topic out of the two given topics and speak on the chosen topic during the interview for 3-5 minutes - giving their views and arguments in favour or opposition to the topic given during the interview.
5. Please do not call us prior or during the allotted time slots, as our phone lines are going to be busy. We will call you prior to or during the time slots allotted to you. Only in case of an emergency such as non-functioning of skype should you call us.
6. Please ensure that the microphone and webcam along with internet connection are working properly well in advance of the time slots allotted to you. It would be good if the facility you are using has UPS back-up in case your area is affected by electricity cuts. **CEPT University will not be responsible for any technical faults or non-functional interfaces at your end.**
