

URBAN HERITAGE FUTURES: REIMAGINATION FOR REGENERATION

MAPPING COUNTER NARRATIVES

Wednesday, 17th August 2022

Time: 5:30pm to 7:00pm (IST)

Cultural Mapping is integral to UNESCO's Recommendation on the Historic Urban Landscape. Inventories of heritage assets can easily become expert-led products of dominant narratives of cultural heritage. The process of mapping marginalized or under-represented narratives is a step towards equitable representation of heritage places. In this session, two cases of mapping efforts will be presented.

Session Schedule

5:30PM	INTRODUCTION TO THE SESSION Jayashree Bardhan
