## The structural narrative of Indian modernity : works of Er. Mahendra Raj

Prof. V R Shah

Founder & Principal Structural Consultant

Vinod Shah Consulting Engineer Private limited |  
Ahmedabad

Er. Mahendra Raj, an extraordinary structural engineer from the pre-computer era, crafted exceptionally unique structures relying solely on his intuition and deep understanding of engineering and mathematics. Renowned globally for his groundbreaking designs, many of which stand as singular marvels, he stands out as one of the most imaginative engineers of his time. Collaborating with renowned architects such as Le Corbusier, Louis Kahn, Charles Correa, Minoru Yamasaki, B V Doshi, A P Kanvinde, J A Stein, and Raj Rewal, he left an indelible mark on the world of architecture. Throughout his illustrious career spanning over 60 years, he demonstrated an unparalleled inventiveness and a bold willingness to explore new concepts. The forthcoming presentation will highlight a selection of Mahendra Raj's key projects from a repertoire of over 250 endeavors spanning the past six decades.

**Venue: FT 216, CEPT University**
